Subject: RE: Contacts for GIS info

John,

Attached are four shape files in a zip file used to make the maps and tables I sent last night.

1. CDWR_Alluvial_Water_Wells_of_Animas.shp

A selection of alluvial wells from the CDWR database.

2. Alluvial_wells_joinedto_parcels_NORTH.shp

Parcel information for each parcel that contains a CDWR alluvial well, joined to CDWR well data. This was a one-to-many join so the resulting table will show repeat parcels if there are multiple wells on a parcel. (This shapefile includes the "WWE_Parcel" field which was used to label each parcel and relate the map to the tables.)

3. Alluvial_wells_joinedto_parcels_SOUTH.shp

Identical to the NORTH shapefile, also includes the "WWE_Parcel" field.

4. Parcels_serviced_by_Animas_Water_Company.shp

a. Generated by WWE from a list of service addresses from on Animas Water Co's website.

Please let me know if you have any questions.

Thanks,

Trevor Downing
Geologist

Subject: RE: Contacts for GIS info

All,

Attached are two maps and two tables showing the alluvial wells of the Animas River. They are separated into North and South of Durango. Looking up a parcel map ID (from the yellow numbers on the map) on the tables will indicate all of the wells that are located on that parcel.

Please let me know if you have any questions.

Thanks Dave. I have added Trevor in my office and Casey with CDPHE.

Trevor will send out the spreadsheet of wells for all wells within the Animas River alluvium and associated parcel numbers and addresses and well permit information to this group.

As always, have to treat the well permit info with a grain of salt.

Thanks,

Pete

If you could send the list of fluvial wells – parcel addresses to Martin

& John, that would be helpful.
